Introduction

Balaji Metal Tech is an ISO 9001-2008 certified company, founded in the year of 2007, specialized in sheet metal fabrication serving to all major Telecom industries located in Peenya Bengaluru India. The company's area of competence includes manufacturing of Enclosures, face plates, Trays & Filter assemblies including hi-precision sheet metal components. Balaji Metal Tech is manufacturers and suppliers of a superior range of Fire Alarm Cabinets, Cabinet In, Panel Boards, Iron Table and Storage Racks. Apart from this, we also provide Sheet Metal Fabrication Works and Complete Fabrication Solution.

Specialization

We specialize in manufacturing mechanically propelled one-step solutions for impeccably finished assemblies, CNC punched precision sheet metal components, cabinets, and assemblies. Our diverse clientele spans across various sectors, including AC Chiller Unit, Autonomous Robotics, Cooling Unit, Aerospace, Medical Sector, and Green Energy.

About Us

We are supported with a team of experienced professionals who help us in meeting the various requirements of clients within a committed time frame. With their support, we also offer Sheet Metal Fabrication Works and Complete Fabrication Solution to our esteemed clients with maximum satisfaction.

Our Vision

Balaji Metal Tech is dedicated to crafting comprehensive solutions driven by mechanical innovation. Our goal is to provide a single, comprehensive source for finely finished assemblies, precision CNC punched sheet metal components, and expertly crafted cabinets. Collaborating closely with progressive industries, our team of qualified professionals acts as your partners in advancement, engaging in simultaneous design processes. We are committed to embracing continuous evolution in all our pursuits.

Our Facilities

Our state-of-the-art facility is equipped with the latest technology and machinery, allowing us to tackle even the most complex of challenges with ease. From laser cutting to CNC machining, our capabilities are as diverse as the industries we serve.

Bending

With four state-of-the-art bending machines, we're bending the boundaries of possibility. From 0.8mm to 8mm in ferrous and 0.8mm to 3mm in non-ferrous materials, our tandem technology allows us to handle lengths of up to 6 meters. Plus, our machines can directly interpret 3D files, showcasing endless bending possibilities.

Laser

At Belaj Metal Tech, precision is paramount. Our two laser facilities, SLN and JFY, operate 24/7, cutting through ferrous materials up to 20mm thick and non-ferrous materials up to 5mm thick. With a bend length of 2000mm x 6000mm, we're ready for any project.

Punching

Our in-house punching facilities, governed by Miotec with 48 stations, operate around the clock. From 0.8mm to 3mm thickness, in both ferrous and non-ferrous materials, we deliver precision punching with a bed length of 4000mm x 1250mm.

Welding

Our fabrication capabilities are second to none. With setups for both ferrous and non-ferrous welding, including spot welding, and certified welders, we cater to industries such as aerospace, medical, and telecommunications. Custom welding? Consider it done with precision and expertise.

Riveting

Precision riveting is our specialty. With two custom riveting machines, we handle everything from M2 studs to M10 studs, standoffs, and clinch nuts. Partnered with industry leaders like Pem Industries, MV Design, and J.C. Gupta, we ensure top-notch riveting solutions.

Our Client Sector

AEROSPACE

GREEN ENERGY

MEDICAL SECTOR

AUTONOMOUS ROBOTICS

COOLING UNIT

BATTERY INVERTORS

BREAKER PANELS

AC CHILLER UNIT

ELECTRICAL PANELS

TELE COMMUNICATION

SACK TEXTILE

PETROLEUM SECTOR

OUTDOOR PANELS

GAMING SECTOR

BREAKER PANELS

BANKING

Our Clients

At Belaji Metal Tech, our success is measured by the satisfaction and achievements of our valued clients. We take pride in collaborating with a diverse range of businesses across industries, delivering tailored solutions to meet their unique needs. Here's a glimpse into our esteemed client partnerships:

Powder Coating

With our in-house powder coating facilities, including custom-sized ovens, we can coat parts up to 6 meters in length. Supporting both ferrous and non-ferrous materials, including multi-colour options, our skilled operators guarantee flawless finishes every time.

Design

With a dynamic team of skilled and experienced members, our design facility is equipped to handle any challenge. From reverse engineering to cutting-edge R&D, we've successfully developed hundreds of new products, all ready for mass production.

Award

Balaji Metal Tech, a distinguished name in the industry, has recently been honored with the prestigious MSME award, a testament to their unwavering commitment to excellence. This achievement is a direct result of the hard work, honesty, and teamwork that form the cornerstones of their operations.
